Cleaning

- Wash or Dry clean all wardrobe pieces BEFORE storing and/or sending to your favorite seamstress/tailor for repairs
- Send all items for repairs BEFORE your seamstress/tailor gets overwhelmed with other projects
- Decide if fur needs replacing on any item NOW (see previous bullet point) and have the entire suit re-furred so it matches

Storage

- Store your wardrobe in breathable garment bags to keep the dust etc. off them; DO NOT store any piece of your wardrobe in plastic!
- Hang hats on their own pants type hanger; DO NOT hang your hats from the pom-pom
- Your wardrobe needs to breathe; don't "stuff" them in an overfull closet

Planning for Next Season

- What pieces need to be replaced?
- When purchasing a new suit, consider adding a second pants and hat out of the same fabric
- A Parade Robe is a good add
- Think about your market: what would appeal to them?
